EXPERIENCE

KBX Logistics, Remote — UX Product Designer

October 2022 - February 2025

Create innovative screens throughout our logistics website that create a more fluid experience for our users residing in the transportation business. Work alongside our dev team to audit any new screens that have been approved for building. Upkeep any old screens to fit the new design style guide. Work alongside other UX Product designers to create an updating design guide to keep up with trends and accessibility. Create a Lo-fidelity library that can be used by other designers to aid in their research process.

MARQ Labs, Nashville, TN — Digital UI Designer

January 2022 - January 2023

Lead UI Designer working alongside our Digital team to update and create website assets. Creating and updating new interfaces for websites our company currently runs and operates. Coming up with new elements that enhance user experience.

OCV LLC, Auburn, AL — UI/UX Designer

January 2021 - July 2022

Work on an array of projects that were designed to create new features for our app products. Updated the user interface on multiple widgets such as our weather widget & hyper-tension widget. Tasked to design & update the company's external and internal website along with our dev team. Have helped in the completion & finalization of multiple stand-alone apps for the company.

OCV LLC, Auburn, AL — Graphic Designer/ Animator

January 2021 - July 2022

Lead designer working along with our marketing director tasked to create any type of new innovative marketing material that ranged from print, digital, and animation strategy. This ranges from fliers, banners, social media Posts, etc. Have created multiple videos to portray our product and who we serve as a company.

ABOUT ME

A well-balanced UI/UX Designer with experience in optimizing user interfaces through innovative & modern layouts. A team player who thrives when working with others but continues to chase after self-growth. A hunger to always learn but mindful in polishing current skills.
